Delivering nationally accredited qualifications

01 HLTAID001 -

Perform Cardiopulmonary Resuscitation

In a range of situations, including community and workplace settings, workers may be required to provide Cardiopulmonary Resuscitation (**CPR**) In this course we identify how to respond to an emergency situation, perform CPR procedures and communicate details of the incident

02 Course Overview

This unit describes the skills and knowledge required to perform CPR in line with the Australian Resuscitation Council

03 Entry Requirements

There are no entry requirements for this course.

04 Foundation Skills

The Foundation Skills describe those required skills (language, literacy, numeracy and employment skills) that are essential to performance.

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency

05 Units of Competency

This qualification is made up of 1 unit of competency:

HLTAID001 | Perform Cardiopulmonary Resuscitation

06 Learning Support

Learners who require support to participate in this program are welcome to advise a Paradigm Training Group representative.

The level of support may be determined by the learner undertaking a language, literacy and numeracy (**LLN**) assessment prior to commencement of this program of study to determine their current skill levels against the skills required to complete the competencies.

A Paradigm Training Group administrative officer will take action if required. Applicants who fall below the required skill levels for this competency will be interviewed by an **LLN** qualified assessor to identify the level of support required with the view to the achievement of successful outcomes.

A learning plan will be developed to identify opportunities for support and where practicable, to ensure the learner is able to actively participate in this program.

07 Course Delivery, Assessment and Duration of Learning

Learners will be required to complete this unit of competency within 3 months of enrolment.

From enrolment, learners may access PTG's online learning system, for theory based learning and assessment and with Trainer and Assessor email support.

Workbooks will be made available for those who prefer to work with hardcopy documents.

This course is delivered through face to face class room delivery or a combination of face to face and online training and assessment.

The face to face component is delivered over half a day and includes up to 3 months for completion enabling candidates time to demonstrate competence. Competency may be achieved using distance based written and/or electronic delivery and assessment.

Assessment may be conducted through combinations of the following methods

- Online and written assessments
- Face to face practical assessment

08 Location

PTG Classrooms are located on the **Gold Coast**.

This course may also be held in other geographical areas.

09 Recognition of Prior Learning

Recognition of Prior Learning (RPL) recognises your existing experience gained through life or work for which you may not have obtained a formal qualification

Applicants who are able to supply valid, sufficient, current and authentic evidence of having the skills and knowledge required for this unit may be eligible for RPL and should consult with PTG for advice on this process.

As CPR must be renewed every 12 months, it is unlikely that RPL would apply.

10 Required Learner Resources

Learners will be provided with the resources required for this program

11 Course Fees

Cost \$80.00.

You are welcome to attend more than one face-to-face workshop during the 12 month program if you would like extra learning or if the trainer and assessor has identified that you need extra time in order to gain competence. Extra workshops incur no further costs and are included in your original course fee/s.
